March 28, 1972

## DO NOT CIRCULATE

On Friday, March 24th, Walt Disney World gave a presentation to the Department of Transportation and certain team members of the Orange and Osceola County Commissioners on traffic problems concerning State Road 535. Problems of the whole road system were discussed; such as speed limits, road alignment, warning and curve signs, conditions of the roads, etc.

Walt Disney World has donated road reflecters to be placed along the road to ensure safer driving conditions during the night-time hours. As a result of the first meeting, warning and dangerous curve signs will be placed through-out all of SR 535, a more reasonable and realistic speed limit will be set, and the road reflecters will be installed.

Another meeting is scheduled on April 6th concerning such matters as widening of the lanes, re-aligning of the road and paving and strengthening of the shoulders of SR 535. This meeting will be held with the Orange County Commissioners, and we will review further the complete road conditions and hope to get some positive reactions.

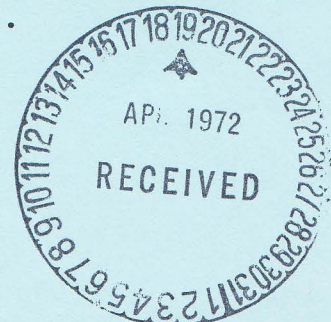

\* \* \*

Walt Disney World is happy to announce that as the result of a recent interpretation of the Presidential Wage-Price Freeze, over two-hundred employees whose increases were deferred during Phase I of the Wage Freeze (August 15 to November 14) received retroactive payment last week, March 20, 1972.

The retroactive payment covered all compensated hours from the date of the employee's increase to November 14.
